DEATH OF WALDO S. KERR.

Waldo S. Kerr, of whom we wrote last week as occupying the second bed in the hospital, died very suddenly on Tuesday evening. All day Tuesday he appeared to be improving and spoke of attending the Masonic Lodge on Thursday night. Mr. Lanz was with him at about half past eight p. m. and went with the hospital attendant Mr. Montgomery, to fetch him some port wine. Soon after this Mr. Johnson who occupies the first bed heard Mr. Kerr give a groan, but was of course unable to go to his assistance, and when Mr. Montgomery returned, life was extinct, though Montgomery had not been absent more than about ten minutes. It is supposed the immediate cause of death was heart disease, and no doubt the exposure experienced on his journey from the King accelerated his demise. Mr. Kerr's friends were at once communicated with, but as they did not respond he was interred with full Masonic ceremonies by White Mountain Lodge No. 5, on Thursday afternoon. Rev. W. George preached an appropriate and affecting sermon from 1 Thess. IV-13, and Grand Master Bailey officiated at the grave. Mr. Kerr was born in Ireland, and lived many years in Florida and in Tecumseh, Neb., and Elk Creek, Neb., at which latter place he leaves a wife and daughter. He went from there about two years ago to Alaska, where he was unfortunate in some mining speculations, and came through California to Arizona in search of employment when he was so suddenly prostrated. We hear he has a relative at St. Johns, Arizona. For wandering strangers and unfortunates like this our hospital fulfills an important function and we hope the public will liberally support it, and we regret to hear it is languishing somewhat. The sympathies of all the friends in Globe are extended to the bereaved wife and daughter in Nebraska. The deceased was a member of Elk Creek Lodge, Nebraska, and of Mount Horeb Commandery, Tecumseh, Nebraska, and professed to be long to the Episcopal church.

GLOBE MINING DISTRICT.

In another column we speak of Globe district as a desirable field for capitalists who intend investing in mining properties; but it is not only the capitalists whose attention we would call to Globe. It is also, in the truest sense of the word, a poor man's camp; and just like manner as we have shown it, by incontestible figures, to be a rich bullion producing district, we will now prove it, and every Arizonian should subscribe for it.

Wm. N. Tweed has a contract for opening and building a road from Picacho, on the S. P. R. R. to the mouth of the O'Brien canyon, on the Gila, two miles east of Blair's ranch, and about nine miles southeast of Dripping Springs, thus bringing Globe within about eighty miles of rail transportation. The road when completed will be a good one with easy grades. The contract requires the completion of the road within ninety days.

Indians have tried to sell some of the cattle recently given to them by the government. Their stock is decreasing in number. Those on the north side of the Gila have no young stock. They kill and eat them. Thus is shown the result of the efforts of the Indian department to make the wards stockraisers.

The masqueraders made merry till an early hour this morning. The guests were regaled by an inviting spread, furnished by Mrs. Hyndman, and nothing was lacking to make the occasion a pleasant one for all who participated.

We have received no California mail for several days, in consequence of a washout fifty miles in length, on the Southern Pacific R. R. near Los Angeles. It may be a week yet before trains will run regularly.

Rev. W. George, on last Sunday evening, gave one of his best sermons, on The Choice of Esau. Next Sunday he will continue to give further lessons from the lives of Jacob and Esau.

Mail will leave at 8 a. m., and arrive at 7 p. m., making the drive between Globe and Riverside in daylight till the weather settles, and the road is repaired.

We call attention to the card of L. H. Goodrich, dentist, on this page. The doctor is vouched for as being master of his profession.

The Globe school report of scholarship and deportment of the pupils, was handed in too late for this issue.

At New Virginia, Quijotos, on the 16th inst., the body of Peter Ragovich was found behind a woodpile, with a bullet hole in the head. It is supposed that he committed suicide, as a 45-calibre pistol, with one chamber empty, was found near by. A coroner's jury rendered a verdict in accordance with the evidence.

The Flagstaff, on the Arizona and Pacific R. R. notes the thermometer as marking on the 6th and 7th 40-22 degrees below zero. It is possible that there may be a mistake in those figures. Flagstaff is on the San Francisco mountains in about latitude 35 degrees.

Billy Lyn, of Tucson, has issued a challenge to Neal McLeod, of Tombstone, to fight for the Police Gazette medal and championship of Arizona.

JOHN HEITH.

ONE OF THE BISBEE MURDERERS LYNCHED.

John Heith, one of the six Bisbee murderers, and evidently one of the worst of the gang, was found guilty of murder in the second degree, the verdict being a compromise one, the jury standing six for murder in the first degree, four for acquittal and two for murder in the second degree. The verdict not meeting the approval of the citizens of Tombstone, they hung the prisoner, on the 21st inst., and the body of the late Mr. Heith is now resting beneath the grass roots.

A Great Horseman.

Mr. J. H. Goldsmith, owner of the Walnut Grove stock farm, N. Y., says of the wonderful creative qualities of St. Jacobs Oil, that having long used it for rheumatism and on his breeding farm for ailments of horses and cattle, he cheerfully accords this great pain cure his preference, as the best he ever used, in an experience of twenty years.

Globe has seven smelters; six are rated as of thirty tons capacity each, but will run fifty tons of ore daily. The only dry-blaze is the exorbitant price of coke, delivered, which is about \$61, and this price will not be materially lessened until the distance of transportation is reduced by rail. Ore of good quality is most abundant. The Old Dominion dumpes are crowded, and new bins for the reception of ore are being built. There are now, probably, not less than 250 tons of copper at the Dominion Co.'s smelters, awaiting transportation.

H. N. Elliot, agent for W. W. Elliott & Co., San Francisco, is now in Globe soliciting subscriptions to an illustrated book descriptive of Arizona, which is soon to be published. It will give a complete history of our territory from its incipiency until the present time. The work will be finely illustrated, an artist being now in the field making sketches. It will be a valuable book of reference, and every Arizonian should subscribe for it.

TWENTY-ONE BOOKS IN ONE VOLUME.

No One Can Afford to be Without It.

G. L. Turner is now canvassing for subscriptions for the publication of a book entitled "Lives of the Presidents of the United States," and will extend his operations to the Territory at large. He is most thorough in all he does and no one will be deprived of the opportunity, by not being called upon, of subscribing for so admirable a work, which should be in every household. The book is beautifully embellished, containing a finely executed steel engraving of each of the Presidents from the commencement of the government to and including Arthur. In addition to the twenty-one portraits, other attractive pictures illustrating scenes in the life of each of the distinguished gentlemen, together with engravings of the great continental buildings, Independence and Carpenter's Halls, at Philadelphia, Pa., Faneuil Hall, Boston, and a representation of the battle of Lexington, as also four full page engravings depicting scenes in each of the four wars in which the United States have been engaged—the whole numbering over sixty. As a book of reference it is invaluable, and besides it is most attractive in every respect. Taylor & Hatch will also receive subscriptions for the work.
